

A Valentine's Day Conversation with a Loved One

A simple conversation can change a life.

Medicare prescription drug coverage is important. It's a vital addition to Medicare that can help people save money and live better, healthier lives. Everyone with Medicare is eligible for this coverage, regardless of income and resources, health status or current prescription expenses.

If you have Medicare, you owe it to yourself to learn more about this new benefit.

If you have family and friends with Medicare, we ask that you help them learn more about it, too. Why not sit down with your loved ones this Valentine's Day and help them get the answers they need? The attached card makes it easy. Print it out. Then send it to a family member or friend who may have questions. Make sure they understand that this coverage can help save them money, and that they know where they can turn to get help with their choices.
